

made.class

The school OS your parents never install.

A one-page introduction for school owners and principals

Your teachers mark attendance in one tap. Your fees arrive by UPI **directly into the school's own account** — no gateway, no convenience charges. And every notice, absence alert and fee receipt reaches parents where they already are: **WhatsApp, in their own language.**

✓ Attendance in one tap

Everyone starts present; teachers tap only the exceptions from their own phone. Absentees' parents get a WhatsApp alert by 9:45 am. You see every class's register status live on one board.

₹ Fees without friction

One button reminds every overdue family on WhatsApp with a UPI link carrying the exact balance. Receipts land in the same chat automatically. Dues dashboard shows who to call, oldest first.

🗳 Parents reached, always

Notices, class diary and results updates in Hindi or English per family, with read-tracking. Families install nothing — ~98% of WhatsApp messages get read.

👥 A view for every role

Teachers see their class. The front desk sees money. You see everything. Everyone sees less and does more.

What it replaces

TODAY	WITH MADE.CLASS
Paper register → Excel → parent calls	One tap; register, alerts and reports from the same entry
Fee chasing by phone; dues discovered at term end	Automatic reminder ladder with UPI links; live dues board
Unstructured class WhatsApp groups, notices lost	Official school messages, per-family language, read receipts
Parent app nobody opens	No parent app at all

Getting started

- **Day 1:** we import your students from any list you have (Excel, register, anything) and set your UPI ID.

- **Day 2:** teachers mark their first register; parents get their first messages. That's the whole rollout.
- **Pilot:** free for the first term — you measure the dues recovered and the calls you stopped making.

See it live in two minutes: the demo runs a real school — 447 students, live registers, dues and the WhatsApp outbox. Ask us for the demo link, or write to hello@made.class.
